

3altayer.app - Comprehensive Daily Executive Summary

Official Technical, Financial & UI/UX Architectural Report | Egypt (EGP)

1. Executive Vision & Hybrid Ride-Hailing Model

- * **Dual Mode System:** Instant Ride (Uber fixed fare, 15% comm) + Bidding Mode (inDrive negotiation, 10% comm).
- * **Primary Target Market:** Egypt (Greater Cairo & Alexandria) with Egyptian Pounds (EGP) & Arabic Primary (RTL).
- * **Fleet Categories in Egypt:** Economy (18+5 EGP/km), Comfort (28+7 EGP/km), Scooter (12+3.5 EGP/km), Toktok (10+3 EGP/km).

2. Full Backend Engine Completed (NestJS + PostgreSQL + Redis)

- * **Auth & Profiles Module:** SMS OTP authentication, JWT Bearer tokens, Rider profiles & Driver verification.
- * **Geospatial & Pricing Engine:** Distance calculations, Redis Geo low-latency tracking & category pricing matrices in EGP.
- * **Rides & Bidding Engine:** Real-time WebSocket broadcasting, instant auto-dispatch loop, counter-offers, and 4-digit OTP start.
- * **Wallets & Financial Ledger:** Automated cash commission debiting, digital earnings credit, and -150 EGP debt ceiling.
- * **Swagger API Docs & Seed Data:** Interactive testing available at <http://localhost:4000/api/docs> with pre-seeded Cairo accounts.

3. Mobile Ecosystem & UI/UX (Rider & Driver Apps)

- * **Captain Mobile Autonomy:** Captains manage 100% of their work from the phone (registration, dispatch, OTP, payments).
- * **Wallet & Repayment Hub:** Drivers settle commissions & top-up via Vodafone Cash, InstaPay, Fawry, and withdraw earnings.
- * **Dispute & Incident Center:** Captains submit in-app tickets (unpaid cash, toll fees, cancellations) for instant reimbursement.
- * **Rider Offers & Referrals:** Promo codes (ALTAYER50), WhatsApp referral sharing (SALEM-789), and loyalty cashbacks.

4. Central Operations & Reports Dashboard (<http://localhost:3000>)

- * **Live Operations Radar:** Real-time fleet tracking, active orders stream, and driver document approvals.
- * **Payouts & Disputes Queue:** Approving driver withdrawal requests and issuing instant wallet compensation.
- * **Incentives & Marketing:** Managing peak hour quests (+60 EGP) and creating custom promo code campaigns.
- * **Comprehensive Reports:** Daily, Weekly, Monthly, and Yearly analytics covering GMV, net revenue, categories, and top zones.

5. Smart Hybrid Google Maps Architecture

- * **User Facing UI:** Google Maps SDK & Google Places Autocomplete API for pinpoint street accuracy in Egypt.
- * **Cost Optimization:** High-frequency GPS tracking handled by internal Redis Geo server at zero API cost.
